

Read the following text then fill in the blanks by picking the best answers provided.

Hi my name is Namitha and I live at Jl. Banda No. 30 precisely in Bandung City and the Postal Code is 40115. Today January 11th 2020 I want to send a package to my friend. Her name is Miki Miura. She lives in Onishi Bldg 10 F 2-1-13 Uchihonmachi Chuo-ku precisely in Osaka City and the Postal Code is 540-0026 Japan. And usually I call her on 60 6944 0521. My phone number is +62 22 414 358. The package that I want to send is 100 bar soaps and the price is \$ 1.25, so the whole price is \$ 125.00. The weight is 40 kg and it made from herbal things. The country manufacture code is 340 111. The postman tells me that the postage paid is Rp. 5.400.500 or equal to \$ 385.75 because the weight is about 40 kg and the dimension is 50 cm for the length, 25 cm for the width and 15 for the height.
