The life of a tomato

- Small green tomatoes start growing.
- Then farmers pack the tomatoes into boxes and put them on lorries.
- A tomato has got a lot of seeds. Farmers plant the seeds in greenhouses.
- The tomatoes grow bigger and become red.
- Farmers sell some of the tomatoes at markets.
- A few weeks later, the plants come out of the soil. They haven't got many leaves or strong roots.
- Farmers pick the tomatoes.
- Farmers take some of the tomatoes to factories.
- The plants soon grow more leaves and stronger roots. Farmers take the small plants and plant them in their fields.
