Sunbathing

sight-seeing

What different nationalities do on holiday...

A new survey of holidaymakers in Europe and the USA has found that the holiday you enjoy may depend on the country you come from.

Some holiday destinations were popular among all nationalities. The beach, for instance, was the **undisputed** leader among all destinations in the survey.

Activity holidays are also popular, for example, cycling, sailing, or trekking holidays. Even when their main **aim** is to relax, travellers said that they enjoyed seeing the sights and visiting places of interest in and around their holiday destination.

There are, however, country-specific differences:

- The Greeks are particularly **keen on** sport during their holidays, with 75% engaging in some kind of sporting activity.
- Sunbathing is extremely popular with the Germans. Almost 50% named it as their favourite holiday activity, especially on Spanish beaches – in fact 25% of high-income Germans are planning to go to Spain in the next 12 months. Going hiking and eating out in **upmarket** restaurants came second and third for Germans.
- Citing concerns about skin cancer, only one in ten Americans said sunbathing was something they would do on holiday. **Eager to soak up** the history and culture that they can't find at home, 46% of Americans prefer to go on tours of museums, historic buildings, and other places of interest.
- About 60% of UK travellers admitted drinking more while away than they would normally do, with 28% saying they had five or more alcoholic drinks every day.
