

1.2 Meet GIS

From the box below, label the four parts of GIS.

– photos of places in the map area

– people's names and addresses

– where your favourite clothes shops are

1

the data you want to display on the map

– areas at risk of flooding

GIS software

a computer

the map you want to use

Data is anything that can be shown on a map.
For example:

3

2

4
