Прочитайте текст вслух. У вас есть полторы минуты на подготовку и две минуты, чтобы прочитать текст вслух.

Life in a city is much easier than in the country — developed transport system, sewerage system, sports clubs, shopping malls, etc. Modern men are too sophisticated for simple country pleasures. There is far more entertainment in a city than in the country. Cities offer high concentration of good things in life: big stores, restaurants, theatres, cinema, art galleries. Life is more convenient in a city, as services are always better there. It is possible to go out, make friends and never be cut off from them by weather conditions. Generally, people do not mind what you do in a city. In the country, everybody knows you and expects you to live and behave in a certain way. Moreover, life is never dull in a city; people always have something to do there.

It is needless to say that citizens are more advantaged in education. Students have museum classes and excursions. They can attend lectures and preparatory courses, and therefore have more chances to enter this or that university. After graduating from a university, the residents of big cities are more likely to find a prestigious and well-paid job. They are more communicative, more experienced. They usually have more friends and relatives to help them. In a city, people have more chances to succeed.
