

English Progression Paper 1

Q 1. Read the fable given below and attempt the exercises given below:

The Crow and the Pitcher

A Crow was dying of thirst when he saw a pitcher. Hoping to find water, he flew to it with delight.

When he reached it, he discovered to his grief that it was only one-quarter full. The level of the water was so low that he could not possibly get at it. The spout was too narrow, and he was too big.

And he knew that if he tipped the pitcher over, the water would spill out before he could drink it.

He thought and thought. Finally, he had an idea.

He collected as many stones as he could carry and dropped them one by one with his beak into the pitcher. With each stone, the level of the water rose higher and higher until it came within his reach. Thus he saved his life.
