

Lesson 1.2 OYO

Remember the **VALUE** must be written in numbers. When you write in expanded form don't forget () and + signs.

On Your Own

Write the value of the underlined digit.

8. 849,567,043

9. 9,422,850

10. 96,283

11. 498,354,021

Write the number in two other forms.

12. 345,000

13. 119,000,003

14. **Go DEEPER** Consider the numbers 4,205,176 and 4,008.

What is the difference in the values of the digit 4 in each number?
