

OPERACIONES COMBINADAS

1. Resuelve las siguientes operaciones combinadas:

a) $20 + 5 - 4$

Diagram showing the calculation steps: $20 + 5$ is calculated first, then the result is subtracted by 4.

b) $54 - 5 + 10$

Diagram showing the calculation steps: $54 - 5$ is calculated first, then the result is added by 10.

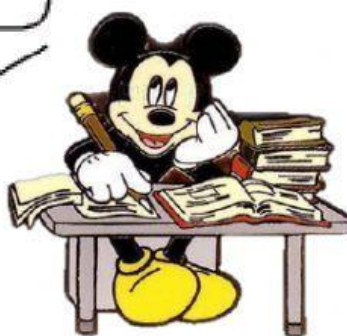

c) $77 + 6 - 10$

Diagram showing the calculation steps: $77 + 6$ is calculated first, then the result is subtracted by 10.

d) $48 - 3 + 10$

Diagram showing the calculation steps: $48 - 3$ is calculated first, then the result is added by 10.

e) $68 - 8 + 8$

Diagram showing the calculation steps: $68 - 8$ is calculated first, then the result is added by 8.

f) $15 - 5 + 50$

Diagram showing the calculation steps: $15 - 5$ is calculated first, then the result is added by 50.
