

Let's review first:

Cause and Effect

A **cause** is why something happens. An **effect** is what happens. A cause makes an effect happen.

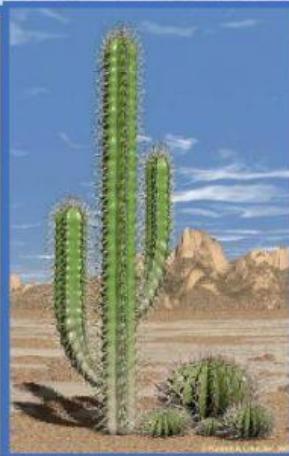

Read the passage. Then

Drag and drop the sentences into the correct box.

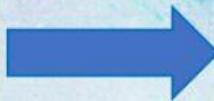

Staying Safe

Plants cannot move. They found ways to stay safe from animals and people.

Some animals eat plants. Some plants grow special parts to stop animals from eating them. A cactus is a plant. It grows in dry places. A cactus has spines. Spines are very sharp! They could hurt animals. The spines keep animals away from eating the plant.

Why (Cause)

What happens (Effects)

Plants cannot move.

A cactus has spines.

The spines keep the animals away.

Plants grow special parts to stop animals from eating them.

Let's practice writing a diary entry.

Drag and drop the sentences in the writing plan.

Plan My Writing

| | |
|-----------------------------|----------------------------|
| Who I will visit? | Where I will visit? |
| When I will visit? | What I will do? |
| Why I want to visit? | |

I will visit my grandparents.

I Will visit my grandparents farm.

I will visit in the winter.

I will ride a horse and help my grandfather with the cows.

I want to see my grandparents and play with the animals.

Write to complete the diary entry. Use the sentences from the previous page.

Dear Diary,

I want to visit

I will visit

I want to visit

Then we can

We will

It will be a great time!
