Look at these examples

"IF YOU CAN PROVE YOURSELF A TRUE HERO ON HEARTH, YOUR GOODHOOD WILL BE RESTORED"

NOW LET'S LOOK AT THE RULES!

## ZERO CONDITIONAL

Structure

**IF + Present Simple, .... Present Simple.**

Usage

To talk about things that are always true,  
like a scientific fact

Examples

- If you **freeze** water, it **turns** into ice.
- And, if you **heat** water at 100 degrees, it **boils**.
- If students **miss** an exam, the professor **fails** them.
- If my wife **has** a cold, I usually **catch** it.
- I **get** tired if I **work** too much.
- If I'm late for dinner, they **start** eating without me.

## First Conditional

Structure

**IF + Simple Present, Simple Future**

(S + will/won't + V(bare form))

Usage

To talk about possibilities in the present  
or in the future

Examples

- If it **rains**, I **will stay** at home.
- If I **wake** up late, I **will miss** the bus.

IF & UNLESS

## NOW LET'S GO TO PAGES 50 AND READ "FACES OF THE FUTURE"

5

### READING • Future humans

I can match visual information to a text.

**THINK!** How are you different from your parents and grandparents? Will people in the future be different? Why?

# FACES OF THE FUTURE

Humans have **adapted** and changed through the ages and, unless a catastrophe **destroys** the Earth, we'll probably survive and continue to change. Scientists are already saying that children born now might live until they're 150. Further into the future, perhaps people won't die but simply buy new body parts as they get older!

What other changes are possible in the years ahead?

**1 Homo Informaticus** If we continue to use computers and screens more and more, our eyes and brains will probably get bigger in order to **process** more information.

**2 Neo-humans** If there's a terrible war or an epidemic, survivors might leave the cities and live in caves. They'll become stronger, hairier and more agile.

**3 Homo Perfectus** If scientists **manipulate** human genes, will some people pay to have children who are better looking, healthier and more intelligent than 'normal' humans?

**4 Cyborgs** Soldiers of the future might be part human, part machine, with super-strong body parts, auto-zoom eyes and a brain connected by Wi-Fi to super computers.

**5 Space humans** If Earth gets too crowded, humans will **colonize** other planets. If they adapt to a different atmosphere and gravity on another planet, they won't look the same as humans on Earth.

Which possibilities do you think are most likely?

Comments

**2**  **2.04** Read and listen to the text again and answer the questions.

- 1 Who might live to be 150 years old?
- 2 What will probably cause our brains to get bigger?
- 3 What will people possibly do as the result of an epidemic or war?
- 4 What are the possible ways the children of the future will be different from now?
- 5 What might happen if Earth gets overcrowded?
- 6 What two types of future humans will have more strength than we have today?

## DRAG & DROP

### First conditional with *if* and *unless*

**1** Match 1–3 with a–c using the article on page 50.

#### Situation

- 1 Unless a catastrophe destroys the Earth,
- 2 If scientists manipulate human genes,
- 3 If humans adapt to conditions on another planet,

#### Result

- a will people pay to have healthier children?
- b the human race won't look the same.
- c we will probably survive.
