

Addition Word Problems

Remember: Look out for these key words:-

Add

Total

All

Sum

Altogether

Instructions: Solve the following:

1. Sita has 4 oranges.

She picked 5 more oranges.

How many oranges does Sita have altogether?

 $+$  $=$
 $\underline{\hspace{2cm}} \quad + \quad \underline{\hspace{2cm}} \quad = \quad \underline{\hspace{2cm}}$

Sita has $\underline{\hspace{2cm}}$ oranges.

2. A caterpillar ate 5 leaves yesterday and 11 leaves today. How many leaves did the caterpillar eat in all?

 $+$  $=$
 $\underline{\hspace{2cm}} \quad + \quad \underline{\hspace{2cm}} \quad = \quad \underline{\hspace{2cm}}$

The caterpillar ate $\underline{\hspace{2cm}}$ leaves.
