

OUR SENSES

Drag and drop the correct statements according to the senses.

Facts:

- ✓ Humans and animals have senses.
- ✓ The five senses are touch, taste, smell, sight, and hearing.
- ✓ Some animals have very good eyesight, such as an eagle.

Sense of Taste

Our tongue is covered in tiny taste buds to taste many different flavours. For example:

Potato Chips are SAVOURY.

Lemon is SOUR.

Cake is SWEET.

Sense of Touch

We can feel the texture of objects around us. For example:

Wall is HARD.

Stone is ROUGH.

Pillow is SMOOTH and SOFT.

Sense of Smell

Our nose can smell everything. For example:

My mother's cooking smells NICE.

Smoke is BAD.

Flower smells GOOD.

Sense of Sight

We use our eyes to see things.
For example:

I see the sun shining brightly.

I look at my brother.

I watch TV.

Sense of Hearing

Our ears can hear or listen
sounds. For example:

Sound of firework's explosion.

Sound of raindrops.

Chirp of bird.
