

IND 3. Locates main ideas in a reading by completing a chart, a mind map or a graphic organizer.

Activity 5

Lea el siguiente texto. Después encierre en un círculo la respuesta correcta, donde T= TRUE (verdadero) F=FALSE (falso).

Greek Families

The concept of family is very important to Greeks. Families are big and members are very close and supportive of one another. When a family member is in need, for example, doesn't have a job, the whole family gets together to find a solution. It's very common for Greeks to work together in a family business. If somebody does something wrong the entire family is dishonored. Socializing is essential for Greek families, who often have big parties with plenty of food. Food is important to them and it is considered rude if guests turn it down.

II. Check T (True) of F (False).

- | | | |
|--|---|---|
| 1. Greek families are generally nuclear. | T | F |
| 2. Family members are very supportive. | T | F |
| 3. If somebody ^{portavienut} misbehaves in some way the family is dishonored. | T | F |
