There are over 840 UNESCO World Heritage sites around the world but some of these are in danger. There are 31 sites that UNESCO list as in danger. 16 of these sites are natural ones like national parks, a barrier reef and wildlife reserves. The country with the most sites in danger is the Democratic Republic of Congo in Africa. It has five sites on the list and they are all national parks where animals like the Bonobo or Okapi live. Italy has the most cultural sites, 43, but they aren't in danger.
