For each problem, write a multiplication equation and solve. Use scratch paper to show your work.

1. Khori and Phillip were skip counting by 6 on the 100s chart. When they got to 42, they circled it. How many jumps of 6 did they take to get to 42?

___ ✖ 6 = 42

2. Za'Kyra and Jacob were skip counting by 3 on the 100s chart. When they got to 42, they circled it. How many jumps of 3 did they take to get to 42?

___ ✖ 3 = 42
