

Patience - Guns n' Roses – Basic II- Cross out and Put in order.

Shed a tear 'cause I'm **missing/fighting** you
I'm still alright to **cry/smile**
Girl, I **think/sing** about you every day now
Was a time **what/when** I wasn't sure
But **I/you** set my mind at ease
There **are/is** no doubt you're in my heart now

Chorus:

Said, "**woman/man**, take it slow and it'll work itself out fine
All **you/we** need is just a little patience"
Said, "**sugar/baby**, make it slow and we'll come together fine
All we need is just a little **patient/patience**"

(patience ooh, yeah)

I sit here on the stairs 'cause I'd rather be **together/alone**
If I can't **be/have** you right now, I'll wait, dear
Sometimes I get so tense, but I can't speed up the **hours/time**
But you **know/understand**, love, there's one more thing to consider

- () You and I'll just use a little patience"
- () We won't fake it, oh, I'll never break it
- (1) Said, "woman, make it slow and things will be just fine
- (6) 'Cause I can't take it"
- () You and I've got what it takes to make it
- () Said, sugar, take the time 'cause the lights are shining bright

(**Little/Small** patience, mm, yeah, ooh, yeah)

(Need a little **patience/love**, yeah...)

(**Just/Some** a little patience, yeah...)

(Some more **patience/love**, yeah...)

I've been walking the streets at **evening/night**
Just tryin' to get it **right/wrong**
It's **hard/easy** to see with so many around
You know, I don't like to being stuck in the crowd
And the **streets/places** don't change but, maybe the names
I ain't got **time/hours** for the game
'Cause I **need/want** you yeah, yeah, but I need you, ooh...I need you
Ooh I need you ... this time
