- 3 _____ do mammals keep warm?
- 4 Elephants have _____.
- 5 Do fish have gills? Yes, gills help _____ breathe.
- 6 Amphibians breathe when they swim. _____ use their skin.

3 Read and check ✓ the correct column. / 7

Whales and Rabbits

Whales and rabbits are both mammals.

Rabbits have fur to keep them warm. Whales don't have fur, they have skin. Rabbits have

legs, but whales don't have legs. They both have two eyes and two ears. Whales are big and rabbits are small. Rabbits live on land and whales live in the water.
