

the Smithsonian

A great place to learn

The Smithsonian is a complex of 19 museums, 9 research centres and a zoo. There are museums in New York City, Virginia, Washington DC and Panama.

Air and Space

The National Air and Space Museum is the most popular of all with over 6 million visitors every year. It has the largest collection of planes and spacecraft in the world. Here you can see one of the first planes, the *Wright Flyer*, and one of the Apollo Lunar Module spacecraft that astronauts travelled to the moon in.

Natural History

The National Museum of Natural History is full of animals, from insects to whales and everything in between. You can also see dinosaur bones and visit the Insect Zoo. The museum is open 364 days of the year and it's free to visit.
