

Vocabulary Unit 5: Animals Building Home

Read the vocabulary words, paying attention to its context and pictures.

1 **shaped**
Have you ever seen a home **shaped** like this? It is curved like a ball.

2 **branches**
Tree **branches** high above the ground are a good home for a sloth.

3 **pond**
Turtles make their home in a **pond**, or small lake.

4 **beaks**
These birds use their **beaks** to build their home.

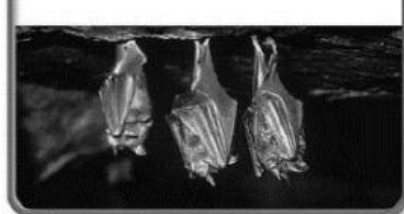

5 **deepest**
The **deepest** part of the ocean is this eel's home.

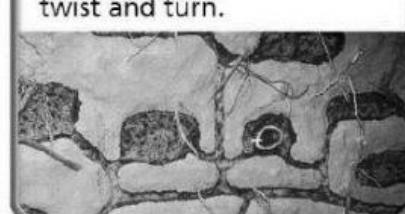

6 **break**
This home won't **break**! It is made of strong rock.

7 **hang**
These bats **hang** upside down in their cave.

8 **winding**
Some animal homes have long, **winding** tunnels that twist and turn.

Draw a line from each word to its meaning.

Pond
Winding
Deepest
Beaks
Branches
Break
Shaped
Hang

To move one way ant the other.
To come apart into two or more pieces.
The farthest from the surface.
A small body of water, smaller than a lake.
Tree parts that grow from the tree's trunk and where the leaves come from.
The way of or form a thing takes.
