Hi everyone. I'm Lucy and I live in Juneau, the capital / ice of Alaska. In the winter, it gets very cold here, so I often stay outdoors / indoors. But in the summer, I really like being outdoors / indoors. It doesn't get very hot here in the summer - around 15 degrees Celsius. But that's great weather for hiking in the mountains / seasons. Because we live so far up earth / north, we have long days in the summer. In fact, the sun sets / rises at about 4:00 a.m. and it sets / rises around 10:00 at night. But in the winter, we only have about six hours of daylight. Juneau probably / famous doesn't have the best weather in the world, but it's my home and I love it.
