

How I use a computer: Read, drag and drop

I use a computer at school, at home and at the club.

At school, I use a computer to do projects, to learn English, to find out about things on the Internet and to learn English. At home, I use a computer to watch DVDs, to do homework and also to write emails. When I am at the club I use the computer to watch music videos, to write articles for the magazine, to look at photos and to play online games from time to time.

At school	At the club	At home

To watch music videos

To find out about things on the internet

To write e-mails

To play online games

To learn English

To write stories

To do projects

To write articles for the magazine

To look at photos

To watch DVDs

To do homework
