Let's work with vocabulary: Shapes
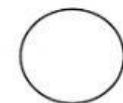

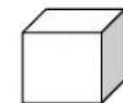

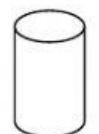

1- Match the nouns in the box to the shapes:

circle - cone - cube - cylinder - hemisphere - rectangle

semicircle - sphere - square - triangle

2- Write an adjective for each noun: (use a dictionary if you need it)

a- *Example: cylinder – cylindrical*

b- Cone: _____

c- Cube: _____

d- Rectangle: _____

e- Circle: _____

f- Semicircle: _____

g- Sphere: _____

h- Square: _____

i- Triangle: _____

3- Look at the following buildings, what do they look like? Describe them using one of the examples shown in the box:

a- b- c- d-

e- f-

a- You can describe the *shape* or *appearance* of the building in picture 1 in different ways:

- *The building **looks like** a cone.*
- *The building **is shaped like** a cone. It's a cone-**shaped** building.*
- *The building is **in the shape of a cone**. It's a **conical** building.*

b- _____

c- _____

d- _____

e- _____

f- _____
