

HOLES

Stanley and Zero are hiding near the camp at night, waiting for everybody to fall asleep. As they wait, they talk about the future. Choose the best option to complete their words.

Stanley: You know, I' ve been thinking about the future... I mean, if we ever get out of here... What **are you going to do/will you do**? If that happens, I think I **am asking / will ask** my father to invent an automatic shovel. What about you?

Zero: Oh, no. I have positively decided that I **am not going to touch / don't touch** a shovel again. If we escape, I think I **will use / am using** my time to look for my mother. I **am going to buy/will buy** her a house and we **will live/live** together for the rest of our lives.

Stanley: That's a great plan! I've promised myself I **will never get/ am never going to get** in trouble again. My parents deserve it. I am sure we **are going to escape / will escape**. Do you think we can escape on the bus which brings in the food and the new campers every week?

Zero: I don't think so. Remember that the bus **will come / comes** at 8am every Monday; that's six days from today. We can't hide for that long; They **are finding / will find** us before that, for sure.

Stanley: Yeah, that's true. Let's work out a better plan.
