- B Bill Gates' partner
- C Vint's partner

Task 3. Watch the video once more and insert the word you hear into the gaps.

- 1) The real answer is that the internet is _____ of an incredibly large number of independently operated networks.
- 2) There's no central control that is deciding how packets are _____ or where pieces of the network are built or even who _____ with whom.
- 3) They are all motivated to assure that there is end-to-end _____ of every part of the network because the _____ of the net is that any device can communicate with any other device; just like you want to be able to make phone calls to any other telephone in the world.
- 4) The idea that what you know might be useful to somebody else or _____ is a very powerful _____ for sharing information.

5) So this is an opportunity for people to think up new _____, maybe program them as apps on a mobile phone, maybe become part of the continued growth of the infrastructure of the network to bring it to people who don't have _____ to it yet; or just make use of it on a day-to-day basis.

6) You can't escape from contact with the internet so why not _____ and use it.
