WRITING SKILLS – LETTER

Read the following letter and then do what is being asked.

A postcard from Sevilla

Dear Linda,

We have at last arrived in Spain in Sevilla, we've discovered our new "home sweet home", and it's a real delight. David is about to introduce us to his new girlfriend, he seems to be really in love with her. They've planned to settle together after the summer break. Lucy is taking her final examination and she will join us fortnight.
For the moment, I am enjoying the house with Michael, he enjoys the view on the seashore and likes fishing early in the morning. Personally, I'm taking a real delight in redecorating the house, especially the new curtains that match the ceiling perfectly.
I hope you will have the opportunity to join us later, there's no problem for the accommodation, the house is big enough.

Looking forward to seeing you, take care

Emy

EXERCISE:

After reading the letter, write an answer pretending that you are the person's friend.
