

$$0.6\text{m} \cdot \frac{5}{10}$$
$$1.7m \quad \bullet \quad \bullet \quad \frac{6}{10}$$

A horizontal number line with arrows at both ends, ranging from 0 to 5. Major tick marks are labeled at 0, 1, 2, 3, 4, and 5. Between each major tick mark, there are 10 smaller tick marks, representing tenths. Five arrows point downwards to specific points on the line: the first arrow points to the second small tick mark after 0 (0.2); the second arrow points to the fifth small tick mark after 1 (1.5); the third arrow points to the seventh small tick mark after 2 (2.7); the fourth arrow points to the ninth small tick mark after 3 (3.9); and the fifth arrow points to the third small tick mark after 4 (4.3).
