

Adaptations

Starter

Match the features in the boxes with either the polar bear or the camel - draw a line to show which animal it belongs to.

Fat stored in hump so it can go days without food

Thick fur to keep it warm even in the coldest winters

Blends in with the snow due to colour of its fur

Can close its nostrils to stop sand blowing up them

Has 2 sets of eyelashes to protect against blowing sand

Is an excellent swimmer so that it can catch seals to eat

Has thick leathery patches on its knees so that it can kneel on hot sand without getting burnt
