Monarch Butterflies

All about Monarch Butterflies

Monarch butterflies go through four stages during their life cycle, and through four generations in one year. It's a little confusing so keep reading and you will understand. The four stages of the monarch butterfly life cycle are:

- the egg

-the *larvae* (caterpillar),

-the **pupa** (chrysalis)

-and the adult butterfly.

The four generations are actually four different butterflies going through these four stages during one year until its time to start over again with stage one and generation one.

Life Cycle- the growing stage a butterfly goes through

Larva- caterpillar stage

Pupa- Chrysalis stage

Diet- 4
