Tour. It is a park which has many small statues set on the stone to decorate the park in order to make a good looking.

Tirta gangga is located at Abang Sub-district, Karangasem Regency in east part of Bali, about 83 km from Denpasar and 6 km from Amlapura to the north. Tirta gangga built in 1948 by King of Karangasem, Anak Agung Anglurah Ketut Karangasem. This water park is constructed in a very unique architectural style of Bali and China. This palace has been shaped in the form of a beautiful water garden and it is located near a natural spring.

Tirta gangga places in 1.2 hectares in area which consists of three complexes. The first complex that is at the very bottom to find two terraced ponds and fountains. The second complex is the center where it can be found in a swimming pool, while, on the third part, namely the third. The scenery of the area is fantastic with great views and the climate is relatively cool. These facts, together with the religious rites of the spring, inspired the King to build himself a private country house nearby this spring set amidst a beautiful recreational garden. He called it Tirta gangga - derived from the words 'Tirta' (blessed water) and 'Gangga' from 'Ganges', the holy river in India.
