Mathematics	10	6	Home Work

Steps in Grid Method:

1. Partitioning
2. Place the numbers in grid
3. Multiply
4. Add both numbers.

a. 25×4

	20	5
4	80	20

$80 + 20 = 100$

Ch1. Partition the numbers in the grid method.

d. 21×6

$\square + \square = \square$

Ch2. Q1. Use grid method to work out these multiplications.

c. 26×4

$\square + \square = \square$

d. 43×6

$\square + \square = \square$

Ch2 Q2. First round the numbers and estimate, and then use the grid method to calculate.

b. 39×3 Estimate = 

$$\begin{array}{r} \times \\ \square \square \\ \square \square \square \end{array}$$

$$\square + \square = \square$$

b. 39×3 Estimate = 

$$\begin{array}{r} \times \\ \square \square \\ \square \square \square \end{array}$$

$$\square + \square = \square$$

c. 17×8

$$\begin{array}{r} \times \\ \square \square \\ \square \square \square \end{array}$$

$$\begin{array}{r} \times \\ \square \square \\ \square \square \square \end{array}$$
