

The diagram shows a staircase with 10 steps. A path of blue squares starts at the top left and goes down to the bottom right. A path of red squares starts at the top right and goes down to the bottom left. The paths cross in the middle of the staircase.

The diagram shows a staircase with 10 steps. The steps are numbered 1 through 10. The sequence of steps is as follows:

- Step 1: 1
- Step 2: 2
- Step 3: 3
- Step 4: 4
- Step 5: 5
- Step 6: 6
- Step 7: 7
- Step 8: 8
- Step 9: 9
- Step 10: 10

Diagram illustrating a 1D lattice structure with two chains of sites. The left chain has 5 sites with values 3, 9, 8, 5, and the right chain has 2 sites with values 2, 5. A vertical red line separates the two chains.

The diagram shows a staircase on the left with 7 steps, each represented by a blue-outlined square. To the right of the staircase is a vertical red line. To the right of the red line is a horizontal bar divided into 5 equal segments by blue vertical lines.
