- 21 Have you been to the photography exhibition Emerald Street yet?

Task 4

Complete the text with these words (Drag and Drop).

BLUR BY NARRATIVE NO PERSPECTIVE
POINT SEQUENCES STRUGGLE TIME

My brother Freddie

My older brother, Freddie, is at university studying photography. He hopes that, (22) the time he's twenty-three, he'll be a wildlife photographer. Right now, he's on the (23) of taking his final exams. In (24) time at all, he'll be a graduate looking for a job opportunity. I imagine it will be a (25) for him to begin. But I've seen some of Freddie's work, and the films he makes are amazing! He does a lot of 'timelapse' photography, which means he slows things down; when animals move fast and he films them, he gets lots of detail instead of just a (26) He also films animals from unusual angles and in different situations, so his films show a different (27) on animal life. The way Freddie puts his film footage together is another thing that makes him stand out – he always creates a fascinating action (28) in his films. He creates a brilliant (29) of wildlife with every film he makes. I'm not very objective, but I believe that in no (30) at all, Freddie Barker will be a well-known wildlife photographer

Task 5

Complete the second sentence so that it has a similar meaning to the first sentence using the word given. Do not change the word given. Use between two and five words, including the word given.

31 The professor explained his theory of perception at our request.

HAD

We his theory of perception.

32 My project on miniature animals needs to be finished tonight.

MUST

I really miniature animals finished tonight.

33 Saskia's phone was stolen at the weekend.

HER

Saskia at the weekend.

34 Everyone at home was watching the film about the albatross.

BEING

The film about the albatross at home.

35 Dad said I should book tickets for the wildlife park as soon as possible.

GET

Dad said for the wildlife park as soon as possible.

Task 6

Use the word given in capitals at the end of some lines to form a word that fits in the gap in the same line.

Seeing the natural world

It isn't easy to say with complete (36) exactly how other animals see the world.	ACCURATE
But thanks to research, we can be reasonable (37) about the following information. It used to be thought that dogs only saw in black and white, but in fact they see a (38) of colours like we do. However, their sight is not great and (39) objects can look blurred to them. For birds, good eyesight is (40) for safe flight, and for spotting food, sometimes from a great (41) Without excellent vision, their (42) is threatened.	CONFIDE
What about insects? Well, flies have eyes that are adapted to the way they live – they have 'all-round' (43) and can move fast if danger is approaching from any side. Eyesight is related to (44) factors – snakes for example can 'see' heat! They know when a (45) predator is close because their eyes tell them!	VARY
	DISTANCE
	ESSENCE
	HIGH, SURVIVE
	VISUAL
	ENVIRONMENT
	DEAD
