

HOMEWORK 6

Read the passages and answer

1

Some foxes live in the country, but lots of foxes are urban. They live in cities. They eat small animals, plants, and rubbish. Foxes are happy in cities at night because they can see in the dark.

2

Red deer live in Scotland. They live in the mountains in summer and in the valleys in winter. They eat plants and berries. Red deer like living in Scotland because there are lots of mountains and valleys.

3

Hedgehogs live in the country and in gardens. They eat insects. Hedgehogs like living in the UK because it's cold in winter and there are lots of their favourite insects.

EXAMPLE
