| 10. She saw decorated Christmas trees.                 | T | F |

	Usually	The Year in the recording
There is no snow in Toronto in November.		
November is cold and dark.		
Driving is difficult.		
You have to bundle up to stay warm.		
You don't need to wear winter boots yet.		
You can ride your bike to work.		
The temperature is around 16 degrees Celsius.		
Trees lose their leaves.
