The Ant & the Grasshopper

THE ANT AND THE GRASSHOPPER

SYNOPSIS

The storyteller appears on the screen and welcomes the children to the storytelling session. Before starting, everybody follows a lovely relaxation activity in which they learn how to breathe. Later, the storyteller invites some friends in order to work with riddles and puppets (ladybug, bee, ant, grasshopper.) During the storytelling, she uses puppets, performs and teaches a song to the audience to help them relax. During the workshop, she narrates and perform a free version of 'The ant and the grasshopper'. All summer long, the ant stores food for the winter. Meanwhile, the grasshopper just sings and dances. Soon, the seasons change and a dreadful winter storm arrives. The children will be actively involved in the tale since they will interact, sing and dance during the zoom show together with the characters.
