

## OUR NERVOUS SYSTEM

(Video: Dr. Binocs Show)

After watching the video, write TRUE or FALSE:

- 1/ The brain controls everything we do, even our heart rate
- 2/ Computers also have the brain's ability to understand and react to the information coming from our senses
- 3/ Different parts of our brain have the same functions
- 4/ The largest part of our brain is called the cerebellum
- 5/ The cerebrum controls our thinking part and muscles
- 6/ The cerebellum maintains our balance and motor movements
- 7/ The cerebellum is connected to the spinal cord
- 8/ The brain stem controls voluntary movements of our body
- 9/ Digesting depends on the cerebellum
- 10/ Exercise isn't good for mental activity
