WRITING PARAGRAPHS.

A Paragraph is a group of at least five sentences, it is at about half a page long.

A paragraph tells about one specific topic. It is made up of a main idea and supporting details.

And easy way to write a paragraph is using a TOPIC SENTENCE to create the main idea.

For example:

There are two national birds in Trinidad and Tobago.

After the topic sentence, we write other sentences with details to support the main idea.

For example:

- DETAIL 1- The names of the National birds are the Scarlet Ibis and the Cocrico.
- DETAIL 2- The Scarlet Ibis is bright red.
- DETAIL 3- The Cocrico is small and brown.
- DETAIL 4- The Scarlet Ibis lives in the Caroni Swamp while the Cocrico lives in Tobago.

When we put the topic sentence and details together, we get a paragraph.
