I. Read the text.

Read Natalie's description and answer the questions.

My favourite animal

My favourite animal is Dolly the dolphin. I like dolphins because they're clever and friendly. They aren't dangerous animals. This is a picture of Dolly.

Dolphins live in the sea, but Dolly's home is Sea Park Aquarium. She's been at Sea Park for six months. People took her there because a boat hurt her. She's very big, but she's still young. When she's older, she'll be about two metres long.

Dolly's lucky to be at Sea Park. She eats lots of fish every day and a vet looks after her. One day, Dolly will go back to live in the sea again.

When I go back to Sea Park, I'll watch her swimming and diving and playing games with a ball.

- 1 What kind of animal is Dolly?
- 2 Why does Natalie like these animals?
- 3 Where does Dolly live?
- 4 How long will Dolly probably be when she's older?
- 5 What does Dolly eat?
- 6 When will Natalie see Dolly again?

a dolphin
