

Use the rhyming couplets below to help you write
a poem about books or your favourite library.

I love books both big and small
I wish that I could read them all

They take me places far away
That I can visit almost every day

I love to read, so many worlds to explore
Each book opens a new wonderful door

Libraries are such a magical place
Where I can escape to the country or out into space

I can make new friends both in stories and real
I love my library and the way it makes me feel.
