

Missing Subtraction Values and Fact Families — Test

Find the missing numbers in the subtraction equations below. Once you find the missing number, you must check your answer by reversing the numbers.

1) $8 - \underline{\quad} = 3$

$\underline{\quad} + \underline{\quad} = \underline{\quad}$

2) $10 - \underline{\quad} = 7$

$\underline{\quad} + \underline{\quad} = \underline{\quad}$

3) $17 - \underline{\quad} = 11$

$\underline{\quad} + \underline{\quad} = \underline{\quad}$

4) $13 - \underline{\quad} = 5$

$\underline{\quad} + \underline{\quad} = \underline{\quad}$

5) $20 - \underline{\quad} = 12$

$\underline{\quad} + \underline{\quad} = \underline{\quad}$

6) $14 - \underline{\quad} = 10$

$\underline{\quad} + \underline{\quad} = \underline{\quad}$
