

## **Estimation Worksheet**

Estimate the sums or differences using the method of estimation given then find the exact answer. Align the numbers on a loose leaf then put the answers on this worksheet.

Estimate numbers 1 to 3 by using **front end** estimation. Find the exact answer.

1)  $3,568 - 1,032$

Estimated answer:

Exact answer:

2)  $23,261 + 57,224$

Estimated answer:

Exact answer:

3)  $4,008,211 + 5,661,690$

Estimated answer:

Exact answer:

Estimate number 4 by rounding to the nearest **hundred thousand**.

$$4) \quad 8,235,372 \quad \longrightarrow$$

$$+ \quad 683,768 \quad \longrightarrow$$

$$+ \quad \text{-----}$$

Estimate number 5 by rounding to the nearest **million**.

$$5) \quad 4,725,871 \quad \longrightarrow$$

$$- \quad 2,623,056 \quad \longrightarrow$$

$$- \quad \text{-----}$$
