

THE PARTS OF THE CIRCLE.

DIAMETER

It is any part of the circle.

CHORD

It is a big arc plus the diameter of the circle.

ARC

It's the length of the boundary of the circle.

SEMI-CIRCLE

It is a closed figure, in which each of its points have the same length to the centre of the figure.

CIRCUMFERENCE

It's just the middle centre point.

CIRCLE

It's the distance between each point of the circle and the centre.

CENTRE

It's a line segment that joins two points on a circle. It can have many different lengths.

RADIUS

It is the longest chord of a circle that passes through the centre of the circle.
