

Adding Three and Four-Digit Numbers without Regrouping

Instructions: Find the **sum**. Show all working in the box at the side of each question.

$$1. \begin{array}{r} 3,751 \\ + 1,215 \\ \hline \end{array}$$

$$2. \begin{array}{r} 6,104 \\ + 2,411 \\ \hline \end{array}$$

$$3. \begin{array}{r} 7,841 \\ + 233 \\ \hline \end{array}$$

$$+ 1,215$$

$$+ 2,411$$

$$+ 233$$

$$4. \begin{array}{r} 582 \\ + 416 \\ \hline \end{array}$$

$$5. \begin{array}{r} 2,753 \\ + 5,212 \\ \hline \end{array}$$

$$+ 416$$

$$+ 5,212$$

Instructions: Correctly set each problem up. Show your working in the box next to the question.

$$6. 4,333 + 152 = \underline{\hspace{2cm}}$$

$$7. 6,820 + 257 = \underline{\hspace{2cm}}$$
