

### KEY WORD TRANSFORMATION EXERCISE:

- 1- When a group of us went to see that film, i was the only person who didn't enjoy it.

EXCEPT

When a group of us went to see the film, .....  
enjoyed it.

- 2- I think that your opinion on this subject is wrong.

AGREE

I .....your opinion on this subject.

- 3- A friend of mine took this photograph of me.

TAKEN

This photograph of me .....my friends.

- 4- I couldn't think of a way of solving the problem.

HOW

I couldn't work .....the problem.

- 5- "Don't make so much noise!" she told them.

STOP

She told them .....noisy.

- 6- At the end of the party, we all helped with the clearing up.

OVER

When the party .....us helped with the clearing up.

- 7- It took me a fairly long time to answer all my emails.

QUITE

I spent.....all my emails.

### OPEN CLOZE EXERCISE:

#### NOT THE ONLY EXTINCT CREATURE

They were all wiped out before science had a chance to discover \_\_\_\_\_, but only the dodo's name has lived on. However, experts have now \_\_\_\_\_ able to reconstruct the appearance of dozens of long-extinct birds and animals from the same remote tropical isles \_\_\_\_\_ the dodo lived.

The islands of Mauritius, Reunion and Rodrigues in the Indian Ocean were home to hundreds of unique and rare creatures before humans first set foot \_\_\_\_\_ in 1598. In about 150 years, \_\_\_\_\_ least 45 species had been lost forever \_\_\_\_\_ a result of hunting and the introductions of other species. "\_\_\_\_\_ happened on these islands is a sad tale," says Dr Julian Hume, a paleobiologist who worked on the project.

Now researchers have recreated what the extinct animals and birds would have looked \_\_\_\_\_ from fragments of bone, fossils and descriptions made by travellers at the time. Following 30 years of research, they have managed to produce detailed pictures of \_\_\_\_\_ the extinct creatures looked and behaved for a new book called The Lost Land Of The Dodo.
