### WALL OF FAME

#### THE NEW TEACHER

1 It was the first day of the new school year. Kurt wasn't excited to be back at school.

I loved surfing on the sea. It was a brilliant summer. Now we're back at school!

We've got a new science teacher this year. What do you think he will be like?

2 In the classroom, Kurt and Lena met their new teacher. He was wearing a long white coat. He was looking for something.

What are you looking for?

My pen. I can't teach science without my special pen.

I can see it if it's there on your desk.

3 The teacher picked up his pen and started to write on the board.

I'm Herr Backstein and we're going to start our first science lesson now. Let's try the year 2150.

What does he mean?

I don't know. What's happening?

4 The classroom went faster and faster. When it stopped, they were all in a different classroom.

Welcome to Mars, everyone. What year did you come from?

Is this really Mars?

This is incredible!

5 The woman showed the class around the town on Mars.

We live under these glass domes. We can breathe the air here.

Do children on Mars go to school like us?

This is the place where children learn about our galaxy. Put on these suits and let's go outside.

6 They walked into another building nearby.

7 Kurt and Lena put on the suits and played football with the other children on Mars.

This is great! Fun!

8 Soon it was time to go back to their classroom.

We need to go back to the present now. Our science lesson will finish soon.

Thanks for showing us the future!

I hope we'll come back again.

9 The children were back in their school.

Did I dream that? That was incredible.

No, it wasn't a dream. I told you I got a piece of rock from Mars.

Wow... It's time for history now.

10 The children opened the classroom door and saw Herr Backstein again.

I'll be your teacher today. Let's take a look at the Stone Age. 14,000 years ago.

This will be fun!
