

Probabilities in the past

👉 Relie les propositions pour reconstituer des phrases.

He said he voted using his phone..●

- because people may share it immediately on social media.

This embarrassing information is normally kept secret, so... ●

- I think it might have influenced her opinions.

Today, politicians always have to be careful about what they say... ●

- people may feel more involved (*engagés, concernés*).

Even though she says she doesn't trust the news website... ●

- so it must have been on the mobile app.

With more ways to interact with politics.... ●

- the person who leaked it must be a whistleblower.

leak = fuite / whistleblower = lanceur d'alerte
