Dear David,

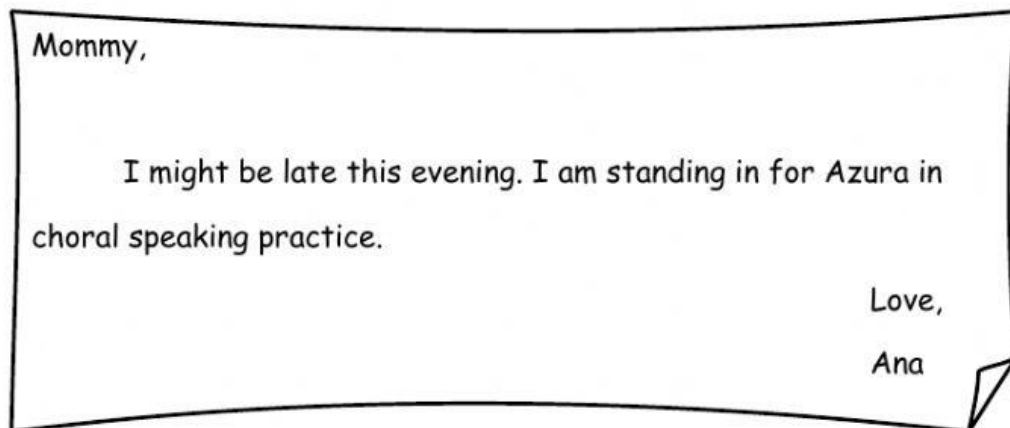

How are you?

Congratulations on being chosen as the school prefect. We used to dream to be the school prefects together. School life will be busier for you but I am sure you can manage it well. As for me, I am still getting used to the new school. I am starting to make new friends.

That's all for now. Bye.

Love,
James

Part 2

Question 9-16

Read the text below and correct the underlined errors.

For each question, write the correct word in the space provided on your answer sheet.

Impact of Junk Food

Eating junk food (0) was the easiest way to gain unhealthy weight. The amount of fats (9) but sugar in the food makes you gain weight rapidly. However, this is not a healthy weight. It is more of fats and cholesterol (10) who will have a harmful impact on your health. Junk food is also one of the main reasons for the increase in obesity nowadays.

This food only looks and tastes good, other than that, it (11) had no positive points. The amount of calorie your body requires to stay fit is not fulfilled by this food. For instance, foods (12) as French fries, burgers, candy and cookies, all have high amounts of sugar and fats. Therefore, this can result in long-term illnesses like diabetes and high blood pressure. This may also result (13) into kidney failure.

Furthermore, junk food contains (14) the higher level of carbohydrates. It will instantly spike your blood sugar levels. This will result in lethargy, inactiveness, and sleepiness. A person's reflex (15) became dull overtime and they will lead an inactive life. To make things worse, junk food also clogs your arteries and increases the risk of a heart attack. Therefore, it must be avoided at the first instance to save (16) our life from becoming ruined.
