**FINAL EXAM  
FIFTH TEENS**

**READING**

**1. READ THE EMAIL AND ANSWER THE QUESTIONS.**

Paula ▶

Hi Paula

Thanks for your email. The photos of your dog are great! I'm going to show them to my mum – she'll love them!

Guess what? I'm going to visit Brazil for a month! I'm going to go with my parents, my sister and my granddad. I can't wait. We're going to fly to Rio first. We're going to stay with Dad's friend, Cristiano. Then we'll drive south to a city called Paraty and we'll go to the beach there. It'll be very relaxing after Rio, because there won't be so many people. We'll stay there for a week I think. Have you got any holiday plans?

Write again soon,

Simon

- A) Where is Simon going to go?  
.....
- B) Who is he going to go with?  
.....
- C) Where is Simon going to stay?  
.....
- D) Will they go to the beach?  
.....

**2. READ THE TEXT ABOUT NADIM'S HOLIDAY. READ THE SENTENCES AND WRITE T (TRUE), F (FALSE) OR DS (DOESN'T SAY).**

We went on a skiing holiday with the school this year, but I didn't have a good time, because I had an accident. I skied on the first day, but in the afternoon I fell over and hurt my knee. Luckily, I didn't break my leg, but it was very painful. After that I couldn't ski any more.

In fact, I didn't go out for the next five days. All my friends went skiing every day, but I just stayed in the hotel. I watched TV, played computer games and read magazines all day. It was very boring. But I want to go skiing again next year.

- 1 Nadim went skiing in Switzerland.  
*It doesn't say.*
- 2 He didn't enjoy the holiday.
- 3 He skied for two days.
- 4 He broke his leg.
- 5 One of his friends had an accident, too.
- 6 He went out to watch his friends every day.
- 7 He stayed in his hotel all the time.
- 8 He doesn't want to go skiing again.

3. READ THE ONLINE FORUM ABOUT THE MOST UNUSUAL HOTELS IN THE WORLD. READ THE SENTENCES AND WRITE TRUE OR FALSE.

## THE MOST Unusual Hotels IN THE WORLD

There are many different hotels in the world; hotels for doing sports, city hotels or hotels for doing nothing. Last week, we asked you to tell us about the strangest hotels you know.

1 My parents stayed at the coldest hotel in the world – the Ice Hotel in Sweden. Open from December to April, it's the largest hotel made of snow and ice in the world. Their room was -5° C, but they said that the ice bed was more comfortable than their bed at home and the pillows were softer!

2 When my cousin got married, she slept in the underwater room at a hotel on Pemba, one of the loveliest islands off the east coast of Africa. Every morning, they opened their curtains and saw the most beautiful fish in the world. They even swam with them!

3 My family lives in the middle of Manchester. On holiday this year, we stayed at a treehouse hotel in a beautiful forest in Wales. It was much better than being in the city. Our bedrooms were high up in the trees. It was quieter and more relaxing and we did everything more slowly. But the worst thing? There wasn't any electricity so no TV!

**FACT!** Capsule hotels began in Japan. The very small rooms or 'capsules' are big enough for a bed and nothing else so guests share a bathroom in the hall. The good thing is that they are cheaper than many other hotels.

- A) The beds at the Ice Hotel are the most uncomfortable. ....
- B) The treehouse hotel is in Manchester.
- C) Capsule hotels are cheaper than other hotels. ....
- D) Pemba is a forest .....
- E) The pillows at the ice hotel are softer than the pillows at home. ....
- F) You can charge your mobile phone at the treehouse hotel ....
- G) You can see some of the most beautiful fish in the world if you stay in the underwater hotel ....
- H) Capsule hotels originated in Asia. ....

4. READ THE ARTICLE AND PUT THE EVENTS IN THE CORRECT ORDER.

## A plane CRASH?

In March 2014, islanders on Gran Canaria were looking at the sea when they saw a big yellow object. It was long, with a yellow tail and it was in the water near the coast. They called the emergency services – the police, ambulances and the coast guard.

The emergency services told the newspapers that a plane was in the Atlantic Ocean about one kilometre from the coast of Gran Canaria.

At about 3 pm, the BBC and other TV channels around the world began to report that a Boeing 737 crashed into the sea. Workers in the control tower at the airport in Gran Canaria confirmed the reports: 'We are missing a plane!' one airport worker said. Another plane that was flying over the area also saw the plane in the water.

A helicopter and a boat went out to sea to rescue the passengers but when they arrived, they found nothing. There was only a large tugboat – a boat that pulls other boats across the sea.

Finally, the emergency services confirmed the false alarm. It was not a plane – just a boat that looked a bit like a plane. Nobody knows what happened to the 'missing plane' from the airport!

NAME: .....

- a They found a tugboat. —
- b They called the emergency services. —
- c A helicopter and a boat went to the plane. —
- d TV channels said a plane was in the sea. —
- e People saw a plane in the sea. 1
- f Airport workers said a plane was missing. —

# COMPUTERS

## PAST, PRESENT AND FUTURE

Sixty-five years ago, scientists called the first computer 'Baby'. But it was huge. It needed a whole room to itself! A team of people wrote three Maths problems and then waited 52 minutes for Baby to find the answer to just one of them. At the time, this was amazing.

Computers are now both much smaller, don't forget your smartphone is a mini computer, and also more powerful. There is more power in a smartphone than in all the computers on Apollo 11, the first spacecraft on the moon! What's more, with new touchscreen technology, soon we won't need extra things like a keyboard or a mouse.

So, how will computers change in the future? A computer's 'brain' is in its chip and in the future scientists will be able to save much more information on this. So, computers will be smaller and even more powerful and they may even think like humans. In the future, we may not need to tell computers what to do because they might decide for themselves.

**FACT!** Need a new hip, knee or face? Doctors can now use 3D printers to make some parts of the body.

- 1 The first computer was ...  
a very small    b very big    c a baby
- 2 Baby found the answer to ... in 52 minutes.  
a three Maths problems    b an exam question  
c one Maths problem
- 3 The computers on Apollo 11 were ... a smartphone.  
a more powerful than    b less powerful than  
c as powerful as
- 4 In the next few years we won't need ...  
a keyboards    b smartphones  
c touchscreens
