|                                                                                                                                                                                                                        |                                                                                                                                                                                                                            |                                                                                                                                                                                                                                             |                                                                                                                                       |
| <p>A diagram showing a linear settlement pattern. Small black squares representing houses are arranged in a straight line along a wavy line representing a river. The word 'Sungai' is written at the bottom left.</p> | <p>A diagram showing a semi-linear settlement pattern. Small black squares representing houses are arranged in a line along a curved shoreline. Palm trees are shown inland. The word 'Laut' is written at the bottom.</p> | <p>A diagram showing a nucleated settlement pattern. Small black squares representing houses are clustered together in a central area. A road or path is shown passing through the cluster. The word 'Sek' is written near the cluster.</p> | <p>A diagram showing a dispersed settlement pattern. Small black squares representing houses are scattered along a winding river.</p> |
|                                                                                                                                                                                                                        |                                                                                                                                                                                                                            |                                                                                                                                                                                                                                             |                                                                                                                                       |
