

Part 1

Read the texts about 3 different movies and answer the questions. Match the numbers (1-6) to the letters (A-C). You can use each letter more than once.

There is one example.

A — 365 Days

365 Days is an exciting film for all ages. It's about a family travelling around the world on a boat for a whole year. The parents and their two children see sharks and find buried treasure on a desert island. There aren't any special effects in this film because it's a true story. Some of the things the actors say during the film made me laugh so much.

B — Jake's T-Rex

Jake's T-Rex is a science-fiction film about a boy who loves his toy dinosaur. One night, Jake dreams his dinosaur is alive! At first, Jake doesn't like the T-Rex because it does dangerous things. By the end of the film, they're best friends and it's heart-breaking when they have to say goodbye before Jake wakes up. The film has excellent special effects, but it's quite silly. I don't think adults would like it much.

C — Help!

Help! is a great film about a man called George who wakes up on an island, and can't remember how he got there. For some time, George doesn't think anyone lives on the island until he sees a scary man following him. The film is about how George finally escapes from the unusual island. This film is not for young children!

Example:

Which film is about someone dreaming about an animal?

Answer

 B

1. Which film has special effects?
2. Which film takes place on an island for most of the film?
3. Which film is best for adults and children?
4. Which film has a very sad ending?
5. Which film has a frightening character?
6. Which film is very funny?
